TIPS

- Choose any of the Snowball Batik colours plus a No 1 colour that complements it, preferably a dark colour to show off the pattern.
- A bigger crochet hook than indicated on ball band was used to create a softer end product.
- When working with two colours, pull slightly on previous colour before proceeding to ensure a neat stitch.
- Always join new ball at side of work for a neat end project.

CROCHET INFORMATION

1 Begin row or round with 3 ch, which counts as first treble.

2 How to change colours in a crochet row

Work last treble to last two loops on hook, pull new colour through last two loops for next stitch.

3 How to carry yarn along in your work

Hold the yarn you are not using just behind the top of the previous row and work next treble in the next stitch and around the colour you are not working with.

4 How to carry yarn up to a new row

Make three chains for the first treble of next row, take second colour around the outside of the work to the back and crochet over it like above.
